Lockdown Humour

OLYMPIC GAMES TOKYO 2020

[SAFETY DISTANCE]

PREDICTION:

There will be a major baby boom in 9 months, and then one day in 2034, we will witness the rise of THE QUARANTEENS.

I know a great joke about Corona Virus, you probably won't get it though

A month of changes - as COVID 19 hit the world, most things stopped operating as normal.

It has affected us all.

Whilst we have been fortunate to continue working, albeit from our homes, many of you have not, and we hope you are all doing ok.

Wage Subsidy

There has been lots of focus on the Govt Wage Subsidy, so I thought it prudent to highlight this in this newsletter.

There are several sites to find all the information:

Employment NZ

Work & Income NZ

In Summary

The Wage Subsidy Scheme:

- supports **employers** adversely affected by COVID-19, so that they can continue to pay their employees, and
- supports **workers** to ensure they continue to receive an income, and stay connected to their employer, even if they are unable to work.

Paybiz and the Wage Subsidy

If you have been granted the wage subsidy, you must pass it on in full or part to your employees, depending on their normal wage.

We have prepared a help document to assist in processing the payments to your staff. Click the following link.
